TESTIMONIAL  
~ ANGELICA RODE ~

Hi, I'm Angélica. I'm an English teacher in Brazil, and I'm here studying at SGIC because a friend of mine studied here some time ago, and she highly recommended the school. This is why I chose SGIC. The course that I'm taking is the i-TESOL course, which is aimed at English teachers for speakers of other languages. What I liked the most about the classes was the fact that it was very practical, So we could always learn and practice the teaching techniques that we were learning and we could present, we could invite other students to be here with us, students from other classes as well.

So during this time here at SGIC, my English skills improved a lot because I had many opportunities to practice my English, to practice all the skills, speaking, listening, writing, and reading. My teaching skills have also improved. I liked the experience a lot because I could make a lot of friends from all over the world people from Brazil, South Korea, Japan, Colombia, and a lot of different countries. Here's advice for the new students, enjoy all the opportunities that the school provides to use the language, and enjoy the social activities!
