A Note From Our student Mr. Angel Chavez

"I chose SGIC because, along with my dad, we thought it was the best school. What I like most about SGIC is meeting people from different cultures, which has been a very enriching experience. The most valuable part of the course for me is being required to speak English, as it has been crucial for improving my language skills. I would definitely recommend this course to others because it has been very effective and has provided me with an amazing experience."
